

It is absolute crucial that LPFM stations should NOT be allowed to expand and take priority over current FM translator services.

Thousands of people listen to K-LOVE radio (94.7, 94.9, and 105.3) and it has served our local community well. As a resident, we need K-LOVE radio to continue the ability to transmit their service in the Memphis area. Second, it is my opinion and many other listeners that if K-LOVE radio is displaced by an LPFM broadcaster, it will have a VERY NEGATIVE effect to our local community. Third, I believe that the services provided by K-LOVE radio has a VERY POSITIVE and encouraging program that inspires listeners of all ages to strive for excellence and promotes community service. Thus, it is in the public's best interest to allow stations like K-LOVE to continue to be heard on FM translators.

Best Regards,
